

Challenger Learning Center-St. Louis Girl Scout Programs

2012-13

Brownies

Space Scientist Our Own Council Badge

Become a space scientist for the day at the Challenger Learning Center. Participants will engage in a hands-on simulated space mission where they will perform activities similar to astronauts and scientists on a mission to study an unidentified object. Other activities include designing a mission patch and building rockets.

Program length: 3 hours

Cost: \$23/Girl Scout

Journey Session – WOW! Wonders of Water

Make the Challenger Learning Center part of your Journey. Learn about water conservation, the water cycle, and the importance of staying hydrated. Participants will complete 3 requirements for the **WOW! Wonders of Water** Leadership Journey – part of the *It's Your Planet – Love It!* series. Includes a simulated Mars mission.

Program length: 3 hours

Cost: \$23/Girl Scout

Juniors

Space Traveler Our Own Council Badge

Become an experienced space traveler right here on Earth! Learn about the different skills necessary for becoming an astronaut, and then apply your new knowledge by flying a simulated space mission to study a comet.

Program length: 3 hours

Cost: \$25/Girl Scout

Journey Session – Get Moving!

Make the Challenger Learning Center part of your Journey. Explore the world of energy by studying your “carbon footprint” and learning some creative ways to recycle. Participants will complete 4 requirements for the **Get Moving!** Leadership Journey – part of the *It's Your Planet – Love It!* series. Includes a simulated Moon mission.

Program length: 3 hours

Cost: \$25/Girl Scout

Cadettes/Seniors

Simulated Mission to Space*

Highlights include a hands-on simulated space mission where scouts will experience activities similar to those performed by NASA astronauts, scientists, and engineers.

* *With option to fulfill two requirements for the **Breathe and Sow What?***

Program length: 3 hours

Cost: \$25/Girl Scout

Scout Overnight Program

Spend the night in the Challenger Learning Center and become an experienced space traveler. Learn about living and working in outer space while flying a simulated mission. Activities also include a movie and popcorn before lights out! Program is available to Juniors, Brownies, and Cadettes.

Program length: 7pm - 7am

Cost: \$45/Girl Scout
